Third-Party Name <u>Docket No. 2007-440-E I would like to be</u>			
Address <u>notified of a hearing results. Thank You!</u>			
City <u></u>		State <u></u>	Zip <u></u>
Signature <u></u>		Date <u></u>	

NOTE: While Duke Energy will send a copy of a final notice to the designated third-party, the customer and third-party agree that Duke Energy will incur no liability for failure of the third-party to receive the requested notification.

What is Third-Party Notification?

Third-Party Notification is a free service designed to act as a safety net for elderly customers and those with special needs. The program provides a secondary notification when electric service is subject to disconnection for nonpayment.

How Does Third-Party Notification Work?

When the primary disconnection notice is issued to the affected customer, Duke Energy will supply an additional notice for the designated third-party. The third-party can be a relative, friend, caretaker or anyone else the customer chooses.

While the third-party is not responsible for paying the bill, they can help the customer avoid an interruption of electric service. This can be especially important when periods of extreme temperatures could have an impact on the occupant's well-being.

How Do I Enroll in the Third-Party Notification Program?

You may complete the attached form and return it with your electric payment or you can sign up online by visiting www.duke-energy.com. An electronic enrollment form can be found by typing "third-party" in the Search box of the home page.

**PUBLIC SERVICE COMMISSION
OF SOUTH CAROLINA**

DOCKETING DEPARTMENT

NOTICE OF FILING AND HEARING

DOCKET NO. 2007-440-E

**APPLICATION OF DUKE ENERGY CAROLINAS, LLC
FOR APPROVAL OF DECISION TO INCUR NUCLEAR GENERATION
PRE-CONSTRUCTION COSTS**

Duke Energy Carolinas, LLC (Duke Energy Carolinas or the Company) has filed an Application with the Public Service Commission of South Carolina (the "Commission") for approval of Duke Energy Carolinas' decision to continue to incur pre-construction costs of up to \$230 million through December 31, 2009, for the Company's proposed William States Lee, III Nuclear Station in Cherokee County, South Carolina (Lee Nuclear Station). The Application was filed pursuant to S.C. Code Ann. Section 38-33-225. The Application reveals that Duke Energy Carolinas is seeking Commission approval of the decision to incur all pre-construction costs through December 31, 2009, to ensure that the Lee Nuclear Station remains an option to serve customer needs in the 2018 timeframe.

According to the Application, all cost estimates reflect total pre-construction costs to be allocated among South Carolina retail customers, North Carolina retail customers, and wholesale customers for which the South Carolina portion is approximately 28% or \$64,400,000.

Duke Energy Carolinas' Application cites reasons for the continued development of the Lee Nuclear Station. For example, in each of the past five years, approximately 50,000 new customer accounts have been added and served by Duke Energy Carolinas. Further, the Lee Nuclear Station is the largest single capital project in the history of Duke Energy Carolinas. The Application states that approval of the Company's request will provide additional assurance that the Lee Nuclear Station will continue to be an option to serve the Company's customers in the 2018 timeframe. Additional details regarding the Company's anticipated preconstruction costs and schedule are outlined in its Application.

A copy of the Company's Application may be obtained from the Commission at the following address: Public Service Commission of South Carolina, Docketing Department, 101 Executive Center Drive, Columbia, South Carolina 29210. Additionally, the Application is available on the
